

Patient Financial Responsibilities Information

Equipment is either purchased or rented by Insurance. Insurance determines what they will purchase and what they will rent.

Medicare and most other insurance companies have an annual deductible that must be met before they will begin to consider making payments for supplies and equipment. If the deductible is applied to charges that we submit on your behalf, Medicare/Insurance will withhold the applied deductible amount from Doubek. The patient is responsible to pay us the deductible. Most supplemental policies will not pay the Medicare deductible.

PURCHASE
The supplies you received (excluding certain durable medical equipment) should be approved as a purchase and Medicare pays at 80% of their allowable. The remaining 20% portion will go to your supplemental/secondary insurer. After all insurances have been billed, any unpaid balance will be forwarded to you.

We hope this helps you understand your financial responsibility. If you have any questions please call our office. We also hope that your supplies or equipment are satisfactory and aid you in your daily living.
